

ENFORCER SERIES Breathalysers

CERTIFIED TO THE SAME STANDARD AS POLICE BREATHALYSERS

AlcoLimit Enforcer 2 and Enforcer 3 Breathalysers are **Australian Standards AS3547 approved**. Originally designed for use as workplace breath alcohol testers, they are now our most popular models for general public use. Available in 2 and 3 decimal place versions. Very affordable, accurate and easy to use!

- 2 & 3 decimal place accuracy
- Range of 0.000-0.400%BAC (8 x the legal limit)
- Large digital display
- Simple and easy to use
- Fast mode for rapid workplace testing
- Australian Standards AS3547 approved

Easy-to-use

Operation is controlled by a single button. All displays are backlit for ease of reading in low lit areas. Audible beeps and display cues provide guidance for the user to ensure adequate breath is received. Automatic shut-off after each use saves power (normal mode only).

Fast & Accurate Results

The latest semiconductor sensor technology and self-check software provides a quick warm up and accurate results. Conformance to **Australian Standard AS3547** ensures the accuracy, durability and functionality of the Enforcer series has been thoroughly tested.

Normal Mode

After a positive result in fast mode normal mode confirms the actual level of alcohol. A %BAC result appears on the display within only a few seconds.

Fast Mode

Allows quick successive screening of employees. A 3 second presence/absence test for alcohol is performed then the unit resets ready for the next test. No mouthpieces are required in this mode keeping the cost of consumables low.

ALCOLIMIT®
DIGITAL BREATHALYSERS

Product Code: Enforcer 2 (ALCO-007)
Enforcer 3 (ALCO-008)

Self-Replaceable Sensor Technology

Pre-calibrated sensors are available for the user to simply remove the existing sensor and install the new pre-calibrated sensor. Ideal for remote locations and means minimal downtime for recalibration.

Flow Control Technology

AlcoLimit's Flow Control Technology checks the flow rate of your breath ensuring an adequate air sample is received for analysis.

Sensor Recognition Technology

AlcoLimit's Intelli-sensor Recognition Technology checks the sensor condition every time the breathalyser is initialised. Stability of the sensor is analysed as is the level or alcohol residue build-up on the sensor. An indication will be given if the sensor needs recalibration.

Uni-lateral flow Mouthpieces

Uniquely designed uni-lateral flow mouthpieces ensure precise breath flow directly on the sensor. The mouthpieces fit quickly and securely in one-way only.

Large Illuminated Display

The display of the Enforcer Series is illuminated for day and night time use. It's large digits are easily readable by all users. Audible beeps and additional light indicators warn the user they have a high %BAC reading.

Printer option available

Workplace training is available online to certify employees to use the Enforcer AlcoLimit Enforcer Breathalyser - Usage & Administration in a Workplace Environment (Certificate of Attainment)
Course Cost: \$149

Product Usage Videos are available on our product page.
See How-to-Use and Enforcer Breathalyser and How to Change a Sensor.

Printer Option

The ability to print results is available on the Enforcer 3 breathalyser. Instantly print %BAC results on the spot for workplace records.

	PRODUCT SPECIFICATIONS
Recommended Usage:	Personal
Sensor Type:	Self-Replaceable (SRS) Advanced Semi-conductor Sensor
Accuracy:	Conforms to Australian Standard AS3547 +/- 0.010% at 0.100% BAC
Calibration	Calibrated to the Australian & New Zealand legal limits
Range %BAC :	0.000 - 0.400
Display:	2 and 3 decimal places. Large display illuminated for night-time use
Warm-up time:	< 20 seconds
Breath Sampling Time:	5 seconds
Housing:	Shock Resistant Plastic
Weight:	118 grams
Power Source:	2 x 1.5v 'AA' Alkaline batteries (supplied)
Dimensions:	137 x 73 x 44mm
Warranty:	12 Month Limited Warranty
Mouthpieces:	Disposable - 5 included
Accessories:	Mouthpieces Pack of 10 (ALCO-030), Pack of 50 (ALCO-020), Pack of 500 (ALCO-043)
